

Rhino Tracking & Sleep Out Package

1-night Sesfontein Guesthouse [DBB]

1-night sleepout [FB] + full day rhino tracking

1-night Sesfontein Guesthouse [DBB]

Accommodation for our guests is provided in modern dome-style tents. The tents provide comfortable beds consisting of a stretcher, a fully made-up bedroll, a duvet, and a pillow. When it does decide to get chilly, especially during wintertime, we supply extra blankets for our guest's ultimate comfort. We provide basic communal ablutions and ensure privacy as well as comfort in the wildest of locations.

This adventure starts as a whole day excursion. After an early breakfast, we depart from the guesthouse to explore parts of the Hoanib River and the Kaokoveld plains in search of the elusive black rhino. We work closely with the "Save The Rhino Trust," making use of specialized trackers from the Sesfontein conservancy. We spend a full day tracking the endangered black rhino. Longer walks on foot might be necessary in order to get close to these elusive animals. This is not a guaranteed sighting or "soft" adventure. The terrain can be rough and challenging, and a lot of physical effort might be required to get close to a rhino. In the late afternoon, we find a suitable spot to pitch our camp. While the guest enjoys the surroundings and a sundowner drink, the staff will put up the tents and prepare the food. The guests can enjoy their evening out in the wild with a refreshing drink whilst sitting around the fire. A warm supper will be prepared on the fire. All drinks are on own account. After dinner, the guests can enjoy sitting around the fire, listening to the sounds of the wild, and gazing at the stars above. As dawn breaks, our day begins with hot filter coffee/tea and rusks around the fire. The guests will then be transferred back to the guesthouse in time for a scrumptious breakfast before they depart for their next destination.
